Profile

Curious and driven Product Intern who loves turning ideas into simple, useful solutions. I enjoy understanding user needs, working with teams, and bringing concepts to life step by step. Quick learner with a problem-solving mindset and strong attention to detail. Excited to build products that make a real difference.

Education

Vellore Institute of Technology

Oct 2022-April 2026

Bachelor of Computer Science and Engineering

Soft Skills

Analytical Skills: Microsoft Excel / Google Sheets, SQL, Google Analytics, Data visualization (Tableau / Power BI)

Collaboration and Communication Skills: Cross-functional collaboration, Stakeholder communication, Clear documentation, Presentation skills, Requirement gathering, Meeting facilitation, Feedback collection synthesis, Problem identification root cause analysis, Market research, Competitor analysis.

Projects

Cricket Data Analytics

Oct 2025

- Tech Stack: React.js, JavaScript, HTML, CSS
- Built an end-to-end cricket data analytics solution using T20 World Cup 2022 data to generate performance insights and support team selection strategy. Web scraped live match and player data, and performed data cleaning and preprocessing using Python and Pandas.
- Analyzed large datasets to extract key batting, bowling, and performance metrics. Designed interactive Power BI dashboards to enable data-driven Best XI selection and strategic decision-making.

QuickCart

Oct 2025

- Tech Stack: React.js, Javascript, HTML5, CSS3, React, Context API
- Developed a responsive Shopping App frontend using React.js, JavaScript, HTML5, CSS3, and Context API. Implemented core e-commerce features including product listing, cart management, and order summary. .
- Built reusable UI components (product cards, banners, navbar) to improve scalability and maintainability. Integrated global state management with React Context API and optimized rendering for better performance.

HR Analytics

Sept 2025

- Techstack : Power BI , Data Visualization , HR Analytics Dataset Collected , cleaned and transformed HR employee presence data (Excel) for analysis
- Developed an interactive HR Analytics dashboard using Microsoft Power BI to visualize workforce data and deliver actionable insights. Performed data cleaning, transformation, and data modeling on HR datasets covering attrition, demographics, job roles, and satisfaction to ensure accurate analysis

Certifications

- Cricket Data Analysis Using PostgreSQL – IIT Madras (NPTEL)
- Oracle AI Vector Search Professional, Oracle Cloud Database Services Professional, Oracle Analytics Cloud Professional
- Data Analytics Job Simulation – Deloitte (Forage)

Leadership

- Lead - ios Club , VIT Bhopal : Coordinated internal teams to manage event timelines, task allocation, and execution. Resolved on-ground operational issues during live events to ensure smooth execution.
- Lead - Vitronix Club , VIT Bhopal: Led a PR team to execute communication campaigns, coordinating with design and operations to enhance brand visibility and ensure timely delivery.
- Lead - Metaverse Club , VIT Bhopal:
